

# DIDSBURY PIONEER

VOL. XXXIII.

DIDSBURY, ALBERTA. THURSDAY, JULY 2, 1936

\$2.00 per year. 5 cents a copy.

## First Scrip Issue May Total \$100,000

The first issue of scrip will be \$50,000 to \$100,000, confined entirely to certificates of \$1.00 denomination and if an unduly large amount is returned for redemption at the end of first month, the government will concede that the scheme is a failure. Hon. Lucien Maynard, minister without portfolio in the Aberhart government, told a meeting in Vegreville Saturday night.

"Retailers and wholesalers who say now they won't accept scrip will be forced to do so in order to hold their business. They will see the extra business going to firms who do accept the scrip, and they will have to fall in line or go out of business," said the minister.

## Junior Track, Field Championships Amateur Athletic Union, Canada.

For the first time in history the youths of Alberta are given the opportunity of competing for Canadian Championship honors within this province, of the National Junior Track & Field Championships of A.A.U. of C. being scheduled to take place in Wetaskiwin on August 11 and 12, under sanction granted to the Alberta branch A.A.U. of C. and to be conducted by Wetaskiwin Amateur Athletic Association.

The competition is open to boys under 19 years of age on date of the meet.

At the same time and place the Provincial Track & Field Championships of the Women's Amateur Athletic Federation of Canada (Alberta Branch) will be staged, senior, intermediate and junior divisions.

Another feature of the 2-day sports fest will be several Highland Dancing competitions for boys and girls under 16 and under 13 years of age.

For information or entry forms apply to K. H. Orr, Secretary, or B. W. Bellamy, Director, Wetaskiwin, Amateur Athletic Association. Entries close Saturday, July 25.

## M.B.C. Camp Meeting

The annual Camp Meeting held under the auspices of the M.B.C. Church will commence on Friday July 3 at 8 p.m. Rev. F. Arthur of Detroit Mich. will be the evangelist. A hearty invitation is extended to all to attend the services and to worship God with us.

Special this year is the Graduation Exercises of the M.V.B.S., morning and afternoon of Saturday, July 4.

Services for Children and Young People, daily during the Camp from July 3 to 12.

## Special Prizes for Fair.

The merchants are taking great interest in the fair this year and most of the business men have signified their intention of giving special prizes. Anyone who wishes to donate a special prize must do so by tomorrow (Friday) noon, so it may be printed in the prize list.

After being more or less on the "outs" for some time over the respective claims of the cities of Calgary and Edmonton, Mayor Davison and Mayor Clarke have called a truce and will ride together in the Calgary Exhibition and Stampede Parade and the Edmonton Exhibition Parade in July.

Neville Chamberlain, England's thrifty chancellor of the exchequer, has just had a new lesson in thrift. The other day he received from a northern town halves of 15 one-pound sterling bank notes as conscience money. Unmatched bank notes, however, are not currency. Several days later halves which matched arrived and each pair became a pound again. Post-office regulations prohibit sending currency through the mail unless registered or insured. Registration of the 15 bank notes would have cost 8 cents.

Quebec's new cabinet, appointed to succeed the resigned government of L. A. Taschereau, was sworn in by Lieutenant-Governor Patenaude, less than two months before voters will go to the polls in the election of August 17.

## Will Feature Horse Racing

Horse Races will be one of the big features at the Didsbury Fair on July 29 it was decided at a meeting of the sports committee Monday night.

A 228 or 230 harness race of three heats will be the main feature and as the fair comes a few days after the Red Deer meet, it is expected that a good string of horses will be here for the event.

There will also be a half mile running race in three heats and a 14.2 and under pony race.

Arrangements are being made to offer substantial prizes.

In addition there will be the usual races and sports for children.

The sports committee is out to bring back the old time sports interest.

## Music Recital

Miss V. Thomson, L.R.A.M. and her pupils are to be congratulated on the splendid evening's program which they presented at the Knox Church on Friday, June 26. A unique feature of the program was the "Rhythmics" performance by ten girls, all dressed in pale green. This part of the recital was a great credit to the efficient and patient training of Miss Thomson, which has been given to the pupils without charge.

During the intermission, announcement was made of the Royal Academy examination results, as follows: Marguerite Fisher, pass; Betty Barrett, (theory) pass; Donna Rumon, pass; Shirley Cameron, honors; Jean MacLeod, distinction; Anne MacLeod, distinction. A presentation was made to Miss Thomson in token of esteem and appreciation.

The following pupils took part during the evening: Nita, Geraldine and Alex Wallace; Mary, Sam and Betty Boorman; Betty, Bob, Nora and Dorothy Barrett; Mary and Jean Robertson; Gladys and Ileen Geeson; Joan Berscht; Marguerite Fisher; Adeline Buhr; Vera Sinclair; Marjorie Burns; Anne and Jean MacLeod; Shirley Cameron; Walter and Stanley Harris (Bowden); and Harold Walkley (Olds).

The proceeds of the recital were presented to the Junior Red Cross and the sum of \$15.45 was handed to the local secretary.

See the slave markets of the Caribbean reproduced in all their infamy—Captain Blood, this week end.

## Band Gets Uniforms

The Band made its first appearance in their new uniforms at the Legion Field Day on Dominion Day.

The uniforms consist of a blue serge cape with a silver lining and a blue serge cap trimmed with silver braid and they give the band a very smart appearance.

The uniforms were made by LaFleche of Edmonton and were supplied through J. V. Berscht.

The band has been engaged to play in the parade at the Calgary Stampede. We understand that they have been given the lead of the Industrial Section which is one of the premier positions.

## Purchased Grain Without License Olds Man Fined.

Buying grain without a license from the board of grain commissioners cost H. E. Woodward, of Olds district, \$10.00 last week. The prosecution, first this year for such an offence, followed repeated warnings from W. H. Blatchford, assistant commissioner, Calgary.

Considerable difficulty has been experienced since the first of the year with buyers who are unlicensed by the board and consequently not bonded. Apart from operations of non-licensed buyers being illegal, farmers in many instances have experienced difficulty in securing their money.

Prosecution of Woodward at Olds by the assistant commissioner followed several complaints from farmers of the district. The accused pleaded guilty, and alternative to the fine a sentence of 30 days in jail was fixed.

## Thanks.

Mr. Studer wishes to thank the fire brigade for their prompt action and all others who helped put out the fire at his residence on Saturday last.

## Prompt Action Saves Residence

Prompt action on the part of the fire department saved the residence of A. G. Studer on Saturday afternoon.

The fire was discovered about five o'clock and had taken a good hold in an upstairs room when the alarm sounded. In a few minutes the fire brigade was on the scene and in spite of a high wind they were able to keep the fire enclosed and very quickly got it under control.

The damage by the fire was not very extensive, but damage by water to both building and plaster work was considerable. The boys are to be complimented on the way they handled the fire, as very little damage was done to the furniture.

The damage was estimated at \$250.00, which was fully covered by insurance.

## Local Rider Wins His First Race

Norman Frasch, local boy jockey, rode C. L. Jacques' Calgary entr., "Book Whittier," to a win at the Winnipeg race meet on Saturday.

Frasch started as an apprentice jockey only three months ago and he won in the first race he had ridden on the premier racing circuit.

## BIRTHS

at Didsbury General Hospital

June 17 to Mr. and Mrs. Nels Carlson a daughter, Rowena Edmee.

June 20 to Mr. and Mrs. Martin Jacobson a daughter, Norma Janice.

June 20 Mr. and Mrs. Leonard Snyder a daughter, Phyllis Lenore.

June 23 to Mr. and Mrs. Harley Traub a son, Edward Laverne.

June 25 to Mr. and Mrs. Sam Good a daughter, Mary Alberta.

June 26 to Mr. and Mrs. Hilding Benson a daughter, Thelma Agnes.

## LaFleche Bros. Clothes

The LaFleche Bros., of Edmonton, Made to Measure Clothes are inseparably associated with CHARACTER and DISTINCTION . . . a blend of fine fabrics and trimmings of excellence . . . exclusive design, styling and cutting . . . hand tailoring of the highest craftsmanship.

LaFleche offers a "Try-On" service which insures a perfect fit. All suits come to us semi-finished and if alterations are necessary they can be made before suits are made up. This service is at no extra cost.

**\$27.50 and \$35.00**

## Lack Of Purchasing Power

One often hears the comment that the prosperity of the cities and towns is dependent upon the prosperity of the farmers, but little is heard of its corollary, namely that the well being of the farmer hinges upon the prosperity of the urban centres, though the one is unquestionably as true as the other.

Possibly the latter has not been heard so frequently in Western Canada as the former because, until very recent times, the farmers' income has been largely derived from an exportable surplus of grain. Under such circumstances the consumer of the bulk of Western Canadian farm products was geographically remote and the fact that the affluence or otherwise of the consumer was of considerable import was but dimly perceived, if recognized at all.

However, this relationship between the Western Canadian producer and the consumer of his products has undergone a change in the past few years and indications are not lacking that the change may be even more accentuated in the next few years.

In the first place, during the past half dozen or so of depression years a substantial percentage of Western Canadian farmers have had little or no income to boast about. Because of a succession of dry years many of them had no crops to sell and others who reaped some wheat or other grains have not received sufficient price to render their work remunerative, partly because of the closing of former markets and partly because of the existence of a big carryover which could not be liquidated, except at tremendous loss.

As a result of their predicament many farmers, even with conditions somewhat more promising, have reduced their acreages seeded to bread grains and are endeavoring to increase their output of other products, including livestock, some of which are finding an outlet to a limited degree in overseas markets and others which, on account of their nature or because of lack of processing facilities, must necessarily be disposed of in local centres.

In the case of those products which are exportable, it is necessary to find new markets or expand existing markets. In the case of products which must be disposed of in local markets, consumption capacity must be increased if the farmer is to be able to dispose of such commodities at a price to yield him a profitable return.

Too frequently, in the past two or three years, farmers have had the experience of hauling or shipping produce to local centres only to find themselves faced with the choice of disposing of them at ruinously low prices or of taking them home again, unsold.

The irony of the situation is that in many cases, perhaps in all of them, the produce would have been welcome in the home of the potential local consumers but, because of conditions which made it necessary for the farmer to raise such produce, these people were unable to buy it, or only at such prices as to render the transaction unprofitable to the producer. In other words, the trouble was lack of purchasing power.

There is no question that local markets are capable of consuming a great deal more local produce if the consumer had the necessary purchasing power and this brings us back to the original statement that the well being of the farmer is dependent upon the prosperity of the urban centres and, so far as Western Canada is concerned, this is much more true than it was a few years ago.

If new local markets can be opened up and the purchasing power of the residents of existing local markets can be increased the problem of the farmer will be at least partially solved.

Fortunately there is every reason to hope that the next few years will see the development of new local markets with the discovery of mineral wealth in the northern areas and its development, a process which is being greatly accelerated at the present time.

This, coupled with an increasing influx of tourists from other provinces and the United States give ground for belief that new markets for local products are in the making. That the latter has real potentialities, at present principally enjoyed by Eastern Canada and British Columbia, is evidenced in the recent publication of statistics showing that more money was spent in Canada by tourists last year than was realized by the sale of Canadian export wheat.

As for the expansion of existing local markets that is, as already stated, largely a question of purchasing power and how this purchasing power is to be increased is a question which is giving rise to a great deal of thought. Can it be done by some overt action or can it only be brought about by the ordinary evolution of economic processes?

One quiet student of affairs, whose name has never appeared in print and perhaps never will, suggested to the writer recently that it could be brought about almost overnight if ten or a dozen of the big industrial leaders of the nation would gather around a table and agree to increase salaries and wages all round. "Merchants," he said, "give much thought to the purchase and display and sale of their commodities, but little or none to the other half of their business—the ability of the consumers to buy."

## Was Partly Modern

### Proclamation Of Coronation Date Broadcast To Empire

With forms and ceremonies inherited from the immemorial past, the date of the coronation of King Edward VIII. was duly proclaimed in London. But modern science and usage intruded even into mediaeval pageantry.

When the Earl Marshal, Duke of Norfolk, and his attendants stepped out upon the hoary walls of St. James's Palace, there was immediately in front of them a microphone to carry to the ears of the kingdom at large all that was said in the King's name. The proclamation set the date of the coronation as May 12, 1937. The date was announced in a special issue of the London Gazette.

While a fanfare blared from the silver trumpets of the Horse Guards, the Garter Principal King of Arms, with white-gloved hands, unrolled a long scroll nearly a yard wide. In sonorous tones he began his reading. The King's guard of Grenadiers stood at attention, and the great crowd hushed into silence. By means of amplifiers, every sentence was heard distinctly to the farthest limits of the throng. Farther away on the battlemented ivy-clad walls of the palace, stood members of the King's personal household.

Sir Gerald read the proclamation, "Declaring His Majesty's pleasure touching his royal coronation and the solemnity thereof." The reading took nearly 10 minutes. It opened with a reference to "the favour and blessing of almighty God" and spoke of "our princely care for the preservation of the lawful rights and inheritances of our loving subjects."

## Big Prize For Air Race

### Race From England To South Africa In September

Sir Alan Cobham announced that I. W. Schlesinger, South African millionaire, has given £10,000 (\$50,000) prize money for the proposed air race from England to South Africa to coincide with the British empire exhibition at Johannesburg.

Schlesinger is promoting the race with Cobham, himself a pioneer long-distance flyer, as consultant. The Johannesburg exhibition opens Sept. 15 and will run until Jan. 15, 1937. The air race proposal has the approval of the British air ministry and the South African government has promised every assistance.

Entire organization of the race will be undertaken by the Royal Aero Club of Great Britain and participation will be limited to British empire pilots and aircraft. In this respect it will differ from the London-to-Melbourne race of 1934 which was open to all-comers.

Cobham said Schlesinger's motive in arranging the event was the promotion of commercial aircraft and the furtherance of air interest on the part of citizens of the British empire. But chiefly, he said, the race was intended to focus attention on the Johannesburg exhibition.

Cobham added the race would show that the day was not far distant when it will be possible to spend a weekend in Johannesburg. Possibly, he predicted, the flight will be accomplished in two days.

## New Comet Found

### Will Be Visible To Naked Eye Late Next Month

The new Peltier Comet, first to be found this year and first to be visible to the unaided eye since 1927, will swing into the range of vision late in July, Harvard College Observatory announced.

Still 120,000,000 miles from the earth, the comet has increased its apparent brightness from ninth to eighth magnitude in four days and by the end of July, before it starts to recede, it will be brighter than sixth magnitude and within 20 million miles.

## Forgot To Forget

One of our newspaper friends says the Windsor Daily Star brings a good story of the absent-minded professor who had suddenly found himself at a dinner which he didn't want to attend. The professor rambled on something like this: "I didn't mean to attend this affair tonight. I meant to forget to come, and I forgot to forget."

## To Have and to Hold

Men who are wedded to the practice of "rolling-their-own" honour and cherish Ogden's. They KNOW that Ogden's Fine Cut is a mighty pleasing tobacco, that it's always mild and soothing—the cigarette tobacco "to have and to hold." Now that better times are here, roll-your-owners everywhere are picking Ogden's because Ogden's is better. The package is better, too—because it has the purple easy-opening ribbon for removing the Cellophane.

"Chantecler" or "Vogue" papers are the ideal mates for such a grand cigarette tobacco.

# OGDEN'S FINE CUT

P.S.—Your Pipe knows Ogden's Cut Plug.

## SELECTED RECIPES

### SHORTCAKE BISCUITS

4 cups flour  
4 teaspoons Magic Baking Powder  
½ teaspoon salt  
4 tablespoons shortening (½ butter, ½ lard)  
1 tablespoon sugar  
Milk, sufficient to make soft dough, about 2½ cups  
Sift together three times flour, baking powder and salt. Cut in the shortening. Add sugar, mix well. Add milk to make soft dough. Turn on floured board. Pat or roll lightly to 1" thickness. Cut rather larger than ordinary. Bake in oven 250 degrees F. 15 to 20 minutes. When done split and spread with creamed butter. Put between biscuits some crushed and sweetened strawberries. The biscuits may be covered with whipped cream, and the juice from the fruit poured round the dish or served at the table as many people do not like the short cake biscuit soaked with juice.

She: You think more of that old wireless set than you do of me.  
He: "Well, I get less interference from it."

## Famous Canadian Artist

### Homer Watson Dies In His 81st Year At His Home In Ontario

Homer Watson, one of Canada's outstanding artists, died at his home near Kitchener, Ont., in his 81st year. He had been ill for several months.

In the same rural community where he died, Homer Watson was born in 1855 and began his art career without tuition of any kind.

In 1880 the Marquis of Lorne purchased "The Pioneer Mill," exhibited by Watson at the Royal Canadian Academy. This painting and another of Watson's early works, "Last of the Drought," went to the private collection of Queen Victoria. Watson's fame spread and he made several trips to England, exhibiting with the famous artists of his day.

His outstanding contribution to the history of the Great War was his panoramic "Valcartier Camp," done under assignments by the Canadian government in 1914.

"The women certainly are patronizing barbershops nowadays."  
"Yes, and it serves some of these talkative barbers right!"

Purity Flour — the very "flower" of the world's best wheat — is always uniform and dependable—rich in nourishment and flavor—for cakes, pies, flaky pastry and bread. A strong flour that goes farther.

# PURITY FLOUR

Best for all your Baking

## Motor Highways Make Accessible Points of Interest In Canada's National Parks

Close to 700 miles of motor highways and secondary roads make accessible points of interest and beauty in Canada's National Parks, and each year this system of park highways is being extended to new areas of scenic grandeur. Realizing that to attract an ever-increasing flow of motor tourists to the National Parks safe, easy riding roads must be provided, the Department of the Interior has gradually increased the mileage of National Park highways so that today major points of interest are now easily reached and the work of further extending the system goes forward.

Of special interest to motorists visiting Waterton Lakes National Park, Alberta—the Canadian section of the Waterton-Glacier International Peace Park—will be the new approach known as the Kennedy Creek-Belly River cutoff. This new highway will be open for traffic during this summer and will furnish a direct connection between Glacier National Park in Montana and Waterton Lakes National Park in Alberta. From the south the new road leaves United States Highway No. 87 only a few miles north of Babb in Montana and runs in a northwesterly direction through the northeastern corner of Glacier Park to cross the International Boundary into the Canadian section of the park.

During the past few seasons considerable progress has been made on the Lake Louise-Jasper Highway. This road will link Jasper National Park, Alberta, with the parks in the "Three-Park Unit", comprising Banff, Kootenay, and Yoho National Parks, and offers motorists a scenic tour of unrivalled mountain beauty. Construction on the Jasper end totals a little more than 50 miles, while the road extends northward from Lake Louise for a distance of about 30 miles. When the remaining gap of about 60 miles has been completed the whole route promises to be one of the most spectacular on the continent from a scenic point of view, traversing as it does the great intramontane trench of the Canadian Rockies which lies east of the continental divide. Throughout its entire length the motorist will behold many awe-inspiring and magnificent views of the lofty peaks and glaciers for which the area is particularly noted.

A motor trip through the great National Parks of the Canadian Rockies offers splendid opportunities to become acquainted with nature in her most magnificent setting. It would be difficult indeed to find more charming and majestic scenery than that in these mountain parks. Motorists who visit the National Parks of the Rockies for the first time are agreeably surprised at the extent and excellence of the dustless and well-graded standard highways, all of which are kept in the best of condition during the touring season. In selecting the route for a new highway the needs of the tourist and general motorist have been considered so as to ensure easy gradients, safety, and awe-inspiring views. With the exception of Glacier National Park on the summit of the Selkirk range in southeastern British Columbia, reached only by rail, all National Parks in Western Canada are accessible by motor car.

Accommodation in the National Parks of the Canadian Rockies may be had at a number of hotels—ranging from the modest-priced to the most luxurious—rooming and boarding houses, bungalow camps, cabins, and motor campsites. Special attention is given to the comfort of campers and cottagers in order that afterwards their visit may be not only a delightful holiday memory but a source of renewed vitality. Visitors are assured of courteous and hospitable treatment wherever they choose to stay.

The prodigal son had returned. "Father," he inquired, "are you going to kill the fatted calf?"

"No," answered the old man, looking the youth over carefully. "No, I'll let it live. But I'll put you to work and train a lot of that fat off."

### The Grading Of Beef

**Brand Is Guarantee It Has Been Government Inspected**

Apart from high quality and value for money, one of the reasons why graded beef is now selling in Canada at the rate of well over 3,000,000 pounds a month is the convenience of purchase afforded to the housewife. It is no longer necessary to pay a personal visit to the store for the purpose of selecting beef. It is necessary only to telephone for the desired cut of blue brand or red brand of beef as desired. The portion of the Government brandmark which appears in ribbon-like form upon each cut when it is delivered is the purchaser's safeguard and protection. The coloring materials used in branding are not injurious and consequently from a health point of view need not be removed before cooking.

Only beef which has passed inspection for health by officers of the Dominion Department of Agriculture may be graded. The Blue Brand (Good grade) carries the moderate amount of fat necessary to protect it in handling and cooking, and to render it tender and juicy and of good flavor. This grade is in demand with those who desire good eating quality without undue waste. The Red Brand (Choice grade) carries a little more fat, or finish, and appeals to those who desire the very highest quality obtainable and to whom price is not the most important consideration. In any case the ribbon mark, Red or Blue, is the purchaser's guarantee of quality.

### Dominion Cerealists

**Leonard H. Newman To Receive Honorary Degree Of Doctor Of Science**

The honorary degree of Doctor of Science is to be conferred on Leonard H. Newman, the Dominion Cerealists, by the University of New Brunswick. In accordance with an official announcement by the Senate of that University, the ceremony will take place at a special convocation to be held in Fredericton in July at the time of the meeting of the Canadian Society of Technical Agriculturists, of which Mr. Newman was formerly president.

Mr. Newman is known throughout Canada for his work in developing new varieties of wheat and other grains. He is a graduate of Ontario Agricultural College, and took special studies at the Iowa State College; at Cambridge University, England, and in Sweden. From 1905 to 1923 he was secretary of the Canadian Seed Growers' Association. Since 1923 he has been Dominion Cerealists which entails the active supervision of the cereal breeding program of all the Experimental Farms of the Dominion Department of Agriculture.

### Need Dry Storage Place

**Onions Keep Best In Open Crates Of Lath**

Most people make a mistake in storing onions. They need to be kept dry instead of damp, and consequently an airy place is best for them, though for the same reason on foggy days all windows should be kept closed.

Open crates of lath, such as are used to ship potatoes, are good receptacles, as they afford ventilation and keep the onion from lying in a deep mass. When they are piled together they are liable to sweat, grow and induce rot.

### Mine Of Information

A Manitoba member states that \$5,000 to \$6,000 is being spent by the agricultural committee in getting information that anyone could secure by consulting the Canada Year Book. That admirably compiled volume says the Edmonton Journal is not made use of to the extent that it deserves either at Ottawa or elsewhere in the Dominion.

Use of wood gas for vehicles is being urged in France.

### New Subject For Study

**Suggestion Made To Teach School Children Safe Driving**

As announced recently A. F. Falls, formerly of Chatham, and now residing in Amherstburg, Ontario, believes that safety in the driving of motor cars should be taught in the schools. The idea is to "train them young" and then when these scholars grow to womanhood and manhood, they will have firmly impressed upon their minds the necessity for care in driving. In this way, he believes the accident toll of the future may be greatly reduced.

Mr. Falls' suggestion is meeting with a favorable response in many quarters, and the Montreal Star discussing his scheme endorses it as follows:

"It is generally recognized that the young driver, with the careless temperament of youth, offers a special problem. A high proportion of automobile accidents must be laid upon 'youth at the wheel.' But whether this were the case or not, obviously the time has arrived in this automobile era when safe driving should be generally taught, and the time to inculcate safe principles is when the pupil is young and impressionable."—Chatham, Ont., News.

### War On Wolves

**Aeroplanes To Be Used To Hunt Down Packs In Alaska**

Plans for an aeroplane attack on savage packs of Alaskan wolves were worked out by three United States government agencies.

Explaining "because of the vast open spaces in northern Alaska it is difficult to approach packs of wolves unobtrusively and kill them by shooting," officials said they planned also to ask the help of reindeer herders in trapping them.

The expenses of an experienced trapper will be paid jointly by the biological survey and the reindeer service. The office of Indian affairs is supplying traps and other equipment. The trapper will travel by aeroplane.

As an example of the wolves' activities, officials said more than 100 reindeer of Barter island were killed despite patro's carrying lanterns.

Emphasizing the seriousness of the situation, Indian office officials said many Eskimos were without food except for that provided by the government.

### Longest Lightning Rod

Los Angeles now boasts of the longest "lightning rod" in the world. It consists of wires above and below the steel towers of the Boulder Dam power transmission line terminating there and is expected to carry off strokes of lightning over a distance of 230 miles.

Milk cows are generally used for plowing in Frieburg, Germany, gateway to the Black Forest of Germany.

## Wild Plant Study Leads To Discoveries Proving Of Economic Value

### Value Of Milk

**Is An Excellent Food For Those Who Are Underweight**

A study of milk consumption recently conducted in a metropolitan centre on this continent reveals the fact that diversity of opinion exists regarding the "fattening" qualities of milk. Of the two thousand adults interviewed, sixty-one per cent. of whom were women and thirty-nine per cent. men, over two-thirds expressed the belief that milk is a fattening food, and the remainder, that it helped to reduce weight. In both cases the percentage was about the same for milk drinkers and non-milk drinkers.

It may seem strange to say that both opinions are correct, but such is the case. When milk is taken, either at or between meals, in addition to the amount of foods which keeps an individual at constant weight, it is natural that it will have a tendency to increase weight. On the other hand, because milk has a low caloric value compared with many foods, it is an important factor in the diet for reducing abnormal weight. The first requisite in every diet, whether it be one for reducing, increasing or maintaining normal weight, is the inclusion of foods which will furnish basic building and regulating material. Milk supplies more nutrients to the body than any other single food and should be given a prominent place in meals planned to "safely" reduce body weight. For the same reason milk is an excellent food for those underweight to use generously, since it adds, not only calories, but essential minerals and vitamins to the diet. It is easier to use extra amounts of milk than most other foods, as it can replace beverages lacking in nutritive value, and can be taken between meals and at bed time without interfering with the regular meals. Then, too, milk is palatable and blends well with other foods.

### Very Dependable

"My gosh, Bill," groaned the managing editor of the tabloid, "nothing scandalous has happened in four hours. What'll we do for the front page?"

"Aw, don't get discouraged, Steve," the city editor comforted. "Something will happen. I've still got faith in human nature."

Synthetic butter has been patented, a chemist points out, but dairy interests hold the patent to safeguard the natural product.

During his lifetime, the average man shaves 20 square miles of face.

## A Lacy Sailor That Dips Or Rolls

Household Arts by Alice Brooks

Be First to Crochet This Summery Two-way Hat

If you're Fashion smart this season, and intrigued by a bit of easy crochet, you'll let smartness "go to your head" in the form of a lacy "sailor" hat. Quickly crocheted in string, the same lacy stitch is used throughout to make the version that dips so alluringly, and the one that rolls so pertly "off face". Directions for crocheting the flowers—and how necessary they are to the smart woman this season—are included.

In pattern 5647 you will find complete instructions for making the hat in both ways and the flowers; an illustration of them, and of all the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

It is well known that some plants are of economic value as food, drugs, fibre and oil-yielding, and that others are noxious or poisonous; but the numerous inquiries received each year by the Division of Botany, Central Experimental Farm, Ottawa, show that many people do not know in which category certain of our wild plants should be placed. Some of the correspondents now enjoy palatable healthgiving dishes of native fruits that they previously shunned as poisonous, while others have been warned against harmful and in some cases, deadly poisonous fruits which they thought to be edible. Plants have been identified that have caused, or may have caused serious illness, or even the death of human beings as well as of livestock, and all persons would be well advised to obtain reliable information before sampling wild fruits or vegetation of any kind about which they have any doubt.

To facilitate this important work of identifying plants, the Division of Botany maintains an extensive collection of native Canadian plants which are carefully preserved and which form the "Herbarium", well known to botanists and to all who are interested in the wild plant life of Canada. This collection contains some fifteen thousand mounted specimens, most of which were collected by members of the botanical staff during their field work over a period of many years, while others were taken from the many hundreds of specimens sent in year by year for identification from all parts of the Dominion.

The collection is readily accessible not only to members of the staff but also to the public for reference and for the comparison of plant specimens, and small herbaria have been established in many institutions. Although inquiries concerning the edibility of wild fruits are so numerous, they form but a small part of the requests received by the staff of the herbarium. Information regarding noxious weeds is continually in demand. These weeds appear in new localities each year. This fact is clearly shown by the valuable weed survey conducted by the Division of Botany, which is also responsible for many additions to the herbarium each year.

The identification of grasses also forms a large part of the work of the herbarium. As is well known, grasses are one of the most important groups of plants, as they enter so much into livestock food value, and in the formation and upkeep of lawns. Some species are numbered among the noxious weeds.

The Dominion Botanist is always pleased to hear from amateur botanists, especially those who are willing to send specimens that might add to the value of the herbarium. Many valuable contributions have already been made by correspondents throughout the Dominion, and other contributions will be gratefully acknowledged.

### Rail-Highway Truck

**Wheels Are Combination Of Tires And Steel Flanged**

A new rail-highway motor truck recently made a run from Akron to Cleveland over Baltimore & Ohio railroad tracks, turned off the rails at West Third Street, and proceeded to its destination. The truck has combination wheels which carry special truck tires beside steel flanged railway wheels. It is driven onto the rails at any crossing. The rubber tires are then deflated, so that the truck settles down with its steel wheels on the tracks. The front wheels are locked when the truck is on the tracks and the driver has no steering to do. When it arrives at its rail terminus, all four of the tires are inflated simultaneously from the engine by the same air-system that is issued for brake operation.—Scientific American.

Courses in American history were not introduced in schools of many European countries until after the World War.

## How to Combat Garden Insects

Garden plants are liable to attack  
by many kinds of destructive insects.  
Some of these destroy the foliage,  
others the flowers, while others bore  
into the stems and even into the  
roots. Injurious insects may be  
divided roughly into two classes by  
the nature of their mouthpieces,  
namely, (1) biting insects which bite  
and chew their food, such as cut-  
worms and other caterpillars, and  
leaf-eating beetles, and (2) sucking  
insects which suck up their food by  
means of their beaks, such as aphids,  
the true bugs, and the scale insects.

If the insect is one with biting  
mouthparts, a stomach poison such  
as paris green, or arsenate of lead,  
is usually applicable, but if the  
insect has sucking mouthparts such  
poisons would be useless because  
the insect would insert its beak  
through the poison and reach a safe  
feeding place beneath. For sucking  
insects, therefore, contact insecti-  
cides are usually recommended,  
those commonly used being kero-  
sene emulsion, whale oil soap, and  
preparations containing tobacco.

A kerosene (coal oil) emulsion is  
made as follows: Use two gallons  
of kerosene, one gallon of rain water  
and a half-pound of soap. Heat  
the water, cut the soap into fine  
shavings and add them to the water,  
stirring until all is dissolved. Then  
pour this mixture into the kerosene  
and churn the whole violently  
with a syringe or force pump for  
about five minutes, or until a thick  
creamy emulsion is produced. This  
makes the stock solution which as  
it cools thickens into a jelly-like  
mass. The stock solution when  
properly made will keep for months  
if air is excluded. When required  
for use the solution should be dilut-  
ed with nine times its measure of  
warm water.

When only a small quantity of  
kerosene solution is required for  
immediate use, the following mix-  
ture is recommended: kerosene,  
1 quart; flour, 8 ounces; water,  
2 gallons. Stir the flour and kero-  
sene together, then add the water  
and churn briskly for 5 minutes. It  
should be used at once.

Whale oil or fish oil soap is used  
extensively for aphids and suchlike  
insects, but its unpleasant odor is  
objectionable to many lovers of  
ornamental plants. For brown or  
black aphids it should be used in the  
strength of 1 pound to 4 gallons of  
warm water; for green aphids or  
thrips in the strength of 1 pound to  
6 gallons of water. With regard to  
tobacco extracts, trade preparations  
containing 40 per cent nicotine sul-  
phate are sold by most seedsmen,  
hardware and drug stores, and  
should be used as directed.

## WEEKLY JOKE

Bert: "The general public  
is losing its confidence in the man  
who runs his affairs by rule-of-thumb  
methods."

Squirt: "Yes, You mean that  
the public is using its thumb in  
thumbtrent?"

Flattery: Soft soap—and soap is  
90% lye —By Gum.

## Items of Interest

The guard-of-honor at the unveil-  
ing of the Canadian Memorial on  
Vimy Ridge July 26 will be furnis-  
hed by Bluejackets of "H.M.C.S.  
Saguenay," it was announced at  
Ottawa last Thursday. The Cana-  
dian destroyer will escort the pilgrim  
ships which leave Montreal July 16

King Edward VIII owns a 99-  
year-old lease on the oil and mineral  
rights underlying the royal ranch  
near High River and southwest of  
the big Turner Valley Royalties  
crude oil producing well, it was  
learned last week. It is the belief  
of many oil men that the crude oil  
pool uncovered by the Turner Valley  
Royalties producer on the west flank  
of Turner Valley extends in a south-  
easterly direction into the ranch owned  
by the King.

Fifty per cent of relief wages will  
be paid in scrip during the summer  
months, John Gray, secretary of  
Drumheller Social Credit Constitu-  
ency Association, said he was informed  
last week by Dr. W. W. Cross,  
provincial minister of health. Dr.  
Cross passed through Drumheller  
last Thursday. The remaining 50  
per cent of relief wages would be  
held by the government and paid out  
during the winter months when  
public works would be almost at a  
standstill.

## Tenders Wanted.

Tenders are wanted for the paint-  
ing of GRAND CENTRE SCHOOL,  
including roof, with a No. 1 paint.  
Lowest or any tender not necessarily  
accepted.

All tenders must be in hands of  
the secretary not later than Monday,  
July 20th.

T. K. PRATT, Sec.-Treas.  
Didsbury.

## Teacher Wanted.

TEACHER WANTED FOR  
CLOVERMOUNT SCHOOL  
—Duties to commence September 1,  
1936 Protestant teacher with  
experience of music preferred.  
Apply, stating salary, experience,  
and with references, to:

C. F. RENNIE  
Secretary-Treasurer,  
Didsbury, Alberta.

A HOUSING PROBLEM SOLVED... Before Imperial Oil  
interests developed the oil fields of Peru there were homes  
there such as that on the left. Foremost in the development,  
which involved expenditures of great sums of money put up  
by thousands of investors, was a program to house the  
native workers. Its result was that rows of neat dwellings  
like those above sprang up on the desert near the oil fields.

THEN THE PHOTOGRAPHER RAN  
... This picture of a great wave coming  
aboard an Imperial Oil tankship on the  
Atlantic Ocean was snapped by one of  
the crew whose next act was to "snap out  
of it" into the shelter of a deckhouse.

## HE CAN'T GO WRONG . . .

Clear, reliable road maps and courteous, helpful  
road and tourist information are only two of the  
extra services gladly given at Imperial Oil stations.  
... With Imperial touring information and Imperial  
gasolines and motor oils, you just can't go wrong.  
Drop a line to Imperial Touring Service, 92 King  
St. East, Toronto, for free road maps marked with  
the best route for that motor trip you are planning.

## WORLD HAPPENINGS BRIEFLY TOLD

This year railway air services will fly 1,000,000 miles on inland routes in Britain as compared with 600,000 miles in 1934.

The United States senate passed the \$2,248,000,000 deficiency bill carrying in its appropriations for next year's relief program.

Under a new treaty Ireland will ship meat, butter, horses, wool, hides and other products to Germany in exchange for manufactured goods.

J. E. L. Graham of Weyburn, Sask., student of University college, was awarded the fourth year gold medal in political science, it was announced by University of Toronto officials.

Conservation of tin cans as part of the German nation's raw material resources has become obligatory with the navy, the supreme naval command decreed.

Successful experiments in the revival of children's hearts after death were reported by Dr. N. Ostipovsky, of the Moscow Medical Institute.

Sir Allen B. Aylesworth, Liberal member of the senate for North York, told the upper house if Canada were given the right to amend its own constitution confederation "would not last."

The Canadian Jewish congress resolved "to support all measures designed to intensify the boycott of German goods." The resolution was adopted at the final session of the third annual meeting.

The Union of Canadian Municipalities will meet in Vancouver August 19-20 instead of July 27-29 as previously planned so that the meeting will coincide with the visit of Sir Percy Vincent, Lord Mayor of London.

## Head Of League Society

**Sir Robert Falconer Re-Elected President Of Canadian Group**

Sir Robert Falconer, former president of the University of Toronto, was re-elected president of the League of Nations Society, the society announced in a communique released at the end of its convention in Ottawa.

John W. Daffoe, editor of the Winnipeg Free Press, was elected honorary vice-president, and Dr. W. R. C. Wallace, newly-named president of Queen's University, Kingston, Ont., was added to the list of active vice-presidents.

The communique said the society directed a special plea to former soldiers and members of the active defence forces to help in carrying out its program for peace.

Airman (after landing in a tree): "I was trying to make a new record." Farmer: "You did. You're the first man to climb down that tree before climbing up it."

Gas in the World War caused 181,053 known British casualties, which include more than 9,000 deaths.

## Airmen Are Honored

**Recognition Of Achievements In Flight Across Antarctic**

Honorary rank of air commodore has been conferred on H. Hollick-Kenyon, and that of honorary group captain on J. H. Lymburner, it was announced by Defence Minister Ian Mackenzie. These distinctions have been awarded in recognition of the achievement of the two recipients in connection with their aeroplane flight across the Antarctic continent.

These Canadian aviators, both of whom have had years of experience in Arctic flying in northern Canada, were selected by Sir Hubert Wilkins to act as pilots for the Lincoln Ellsworth trans-Antarctic expedition. Hollick-Kenyon was chosen for his special qualifications as an air navigator; Mr. Lymburner as an air engineer. Hollick-Kenyon acted as pilot on the flight hailed in aviation circles as an achievement without parallel in the history of flying. Upon Mr. Lymburner's ability depended the airworthiness of the plane for this test.

Hollick-Kenyon and Lymburner are British subjects of long residence in Canada. The former served as a pilot with the Canadian Expeditionary Force, and later with the Royal Air Force. He was wounded on active service.

"The achievement of these two Canadian aviators was the fruit of unique experience gained in Canada. It is recognized as a pioneer exploit, equivalent in its day to those of Alcock and Brown, Lindbergh and Kingsford-Smith," said Mr. Mackenzie, in making the announcement.

"It is the desire of the Canadian government to express in this award of honorary rank the congratulations of the whole people of Canada to Hollick-Kenyon and Lymburner for the honor that they have brought to their country."

## Vancouver Harbor Master

**Perfecting Of Automobile Gave Commander Reed His Job**

For more than a quarter of a century Commander A. H. Reed has been harbor-master of Vancouver, and oddly enough, it was the perfecting of the automobile that landed Commander Reed in the position he has held for so long. He retired as ship's master in 1908 and came ashore with the intention of going into the horse-breeding business. It didn't take him long, however, to discover what every landsman already knew: that the day of the horse was passing. So he returned to the seafaring profession, did some marine surveying for the Dominion Government, and eventually was appointed port warden of Vancouver. Though well over 60 years of age, Commander Reed is still a clever amateur boxer.

It is said that blue-eyed people are more easily trained, and make better air pilots, than brown-eyed persons.

## INVESTIGATES LEAKAGE

Mr. Justice Porter walking to the London Law Courts to preside at the judicial tribunal to enquire into the alleged leakage of Budget secrets. A number of prominent people took out insurance policies with Lloyds against increased taxation of tea and income tax prior to the reading of the Budget in the House of Commons.

## Once Did Flourishing Trade

**Carver Of Meerschaum Pipes Is Dead In Vienna**

Carving of meerschaum pipes, once a flourishing trade of which Vienna held a virtual monopoly, is dying.

Simon Schild, whose name was famous among the pipe smokers of the world for his artistic work, died there at the age of 68, almost in oblivion. Two other masters still survive, but none of them ever attained the fame of Schild, for whose pipes and cigar holders, decorated with artistically carved lions, dogs, or bearded philosophers, enormous prices were paid.

The champion athlete in bed with a cold was told that he had a temperature.

"How high is it, doctor?" he wanted to know.

"A hundred and one."

"What's the world's record?"

A steering wheel which has no spokes in its upper half gives improved vision for the automobile driver.

## Requires Team Work

**Nations Must Not Be Divided If League Is Success**

That the British Government should make one more gallant effort to rescue the noble idea of a League of Nations is quite in keeping with the record and character of the British people who "never know when they are beaten." If Mr. Baldwin can succeed, the whole world will breathe more easily. But many friendly observers who have suffered disappointment after disappointment will wonder whether the world is yet ripe for so ideal a solution of its troubles. No League can work unless practically all the Great Powers are willing to make it work. The present League could have worked in the Ethiopian case if all the Great Powers that are even yet members of the League had been willing to go the full length of the powers that are even now in the covenant.

If France had been as forward as Great Britain, Italy would never have attacked Ethiopia. But France was not. If both Great Britain and France had been as willing to check Japan in Manchuria as was the United States—a non-member of the League—Japan would never have colonized Manchuria. But they were not willing to follow the American lead. The real weakness of the League has been the divided counsels of its leading members, but no change in the Covenant will overcome this obstacle. The more Big Powers we get into the League, the more likely will be this antagonism between rival national interests.—Montreal Star.

## A Remarkable Discovery

**Enables Blind To Read From Ordinary Printed Page**

Discovery of an apparatus which enables blind persons to "read" an ordinary printed page through a series of minute electric shocks was announced by Emil Ranssen North-western University psychology student at Evanston, Ill.

The apparatus employs a photo-electric cell which converts light reflected from the printed page into the electrical energy necessary to produce the shocks.

The "reader" places his hand in a specially constructed wooden "glove". Across the palm of this is a series of nine beads. Through the holes in these beads project the ends of small coils of wire.

Light reflected from the printed page and converted into electrical energy expands these wire coils in different order according to the shape of the particular letter. As these coils expand, their ends touch the hand of the "reader". After long training, the reader may learn to interpret each different series of shocks into the correct letter.

His inspiration for developing this type of apparatus came from Helen Keller, famed teacher of the blind, Ranssen said.

## Was Startled

**Man Surprised To See His Name On Cenotaph At Goderich**

Charles Mew, Decoration Day visitor from Jackson, Mich., arriving in Goderich, Ont., after an absence of 20 years, was startled when he read his name on the cenotaph in the list of those killed in action in the Great War.

"I thought you were dead," Col. H. C. Dunlop greeted him when Mew walked into the Dunlop store.

"Not a bit of it," said the war veteran. "I just came up to see what it was all about."

## Will Be Well Represented

**Prominent Canadians Going To Coronation Next Year**

Canada, as in the case of previous coronations, will be well represented at Westminster when King Edward is crowned May 12, 1937. Prime Minister Mackenzie King and a large section of the Dominion privy council will attend, as will probably opposition leader R. B. Bennett and many other leaders and members in the House of Commons and Senate.

Natives of some African tribes bake their bread in anthill ovens. Large holes are scooped out in towering anthills and a stone slab is used as a door.

## Cameronians Dine In Style

**Great Change Made In Barracks Of Second Battalion**

For the 400 men of the second battalion Cameronians (Scottish Rifles) at Quebec Barracks, Bordon, "Come to the Cookhouse Door Boys" has now been translated into "Gentlemen, your meal is served."

Snow-white tablecloths cover neatly arranged tables, on which knives, forks, spoons and glasses, and even napkins, are laid out. Vases of flowers from barrack gardens complete the attractiveness.

Food is served up more invitingly and every menu offers alternative dishes.

Soldier waiters in white jackets—cut on the lines of ship's stewards—hover round, replenishing water jugs and clearing away plates.

No longer is there a noise like an air raid; plates are taken away quietly on trolleys.

Men are allowed to wander in for their meals when they please, within limits—and they wear any clothes they choose, provided they are clean, from "full parade" to "civvies" and "fatigues."

Although the old Scottish custom of pipers walking round the room and playing at meal times has not yet been introduced as a final touch, there is discreet music from loudspeakers.

Major D. A. H. Graham, second in command of the battalion, who has had much to do with bringing about these changes, said:

"We believe this will result in a considerable saving over the old system of 'First come, first served' and 'Grab all you can, because you will not get any more.'"

## Luxury Travel In Russia

**Soviet Boudoir Train Said To Be Marvel Of Convenience**

A Soviet boudoir train which makes the luxury trains of other European countries look like stage-coaches was on an experimental run recently to Sochi, summer resort in the Crimea.

The least of its appointments is a barber shop—capitalistic trains have those. It also carries a nursery car with toys, complete bath compartments, individual radios and a train crew dressed in the manner of hotel doormen.

Passengers may rent pyjamas and slippers aboard the train in order to travel in all the comfort of their own boudoirs. Each of the chairs can be separated from the others by curtains, providing perfect solitude for those who like it.

Women may obtain needles, thread, and yarns with which to while away the time, merely for the asking.

A tailor shop is ready for business at all hours so no one need arrive at the end of the journey in wrinkled or soiled clothing.

## Going Into Business

**Lloyd George Building Shop To Retail Farm Produce**

David Lloyd George, remarkably successful as a model farmer, has announced he will enter the retail business. The war-time prime minister said he was having a roadside shop built near his estate at Churt, Surrey, which will stock fresh fruit, vegetables, flowers, eggs, honey and jam. It is hoped the produce will appeal especially to the passing stream of motorists.

## Colorful Motif In Simple Stitchery

**PATTERN 5528**

What a refreshing note for any bedroom—this spread with its daintily embroidered motif! The charming poke-bonnet Miss gives you a chance to adorn her hoop-skirt with gay, flower patches, cut from scraps, while her companion and garden come to life with only the merest working of French knots, outline and lazy-daisy stitch. You'll note there's a bolster motif to match—so do hurry, and you can enjoy this lovely needlework all summer.

In pattern 5528 you will find a transfer pattern of a motif 15 x 16 1/2 inches and a motif 4 x 15 inches; material requirements; illustrations of all stitches needed, color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

"These don't taste like  
**YOUR Pickles,**  
Mother!"

Mother was disappointed! She thought she had taken such care to have her mustard pickles just right. It was all the fault of that cheap mustard she had used, thinking to save a few cents.

It is the pure mustard that gives pickles their flavour and zest. Next time, mother will use KEEN'S D.S.F. MUSTARD.

Made from seed grown in the Fens of England. Shells or hulls are removed and only the inner part of the seed is used. Superfine grinding ensures the full mustard flavour.

In original tins for as little as 10¢

## FLEMING'S FOLLY

— BY —  
LAWRENCE A. KEATING

CHAPTER XVI.—Continued

"Any time now. Well, Marty?" Bush gestured for him to step inside the telegraph office. "Ralph's flashing the Division Super, and then he'll sign yore bill of lading. I brought cash, Link, for yuh." He produced a drawstring buckskin bag from his hip pocket and seating himself at Meara's desk, began to count out bills.

Link whistled. "That's the most real money I've seen for some time, Marty."

The other nodded, finished his count, and went over it again. Waco Byrne's interested eyes made Fleming smile. "You can tell the Star Loop men I'll pay them off soon as I get these bills changed. Maybe I could pay the Triple H men too, but that isn't really my business." He accepted the large-denomination bills and edged them carefully into his pigskin wallet.

"Sign here, Link." Bush moved a paper toward him.

Taking up a pen, he wrote his name. "Much obliged. Eight thousand dollars!" He grinned and stood up. "That means the completion of the dam, gents. And maybe I won't be glad when this load is off my shoulders!"

They smiled at his wry grimace. "Better be careful of that money, Link. It'd buy quite a little for almost anyone."

Byrne had left the office and was informing his five hands what Link had said about wages. The Star Loop

owner nodded. "I've kind of been on the watch while the beef was bein' moved here," he said slowly. "However, there's no use huntin' trouble." "You don't have to"—dryly. "Seem to get into it of your own accord. Say, and if yuh go to town to change that cash smaller, look out for Mell. He's spread it far an' wide he'll kill yuh."

Fleming walked out of the place with a laugh that masked the inner tension of him—for he felt an unshakable hunch that this, perhaps, was the fateful day for the meeting. Nevertheless, he had no intention of avoiding a showdown with the Half Moon Saloon owner. It might as well come today as tomorrow.

Bush waved adieu from the doorway. Far down the curling wagon-track road Link saw Waco and the others heading eagerly to town, their throats parched for refreshment such as the Half Moon offered. In another direction the Triple H men rode, going back to their spread. Before Link was well started one group had disappeared over the swell of the range, the other around the fringe of dead cedars that lined the road.

As he touched spurs to his mount he reflected what this money in his trousers pocket meant to the irrigation project. He must pay off the workers at the dam, pay for certain materials long overdue, and of course divide with Helen Hamilton for her two hundred-odd steers. But it could be done; the cash, he thought as he broke into a whistle, would just reach.

The knot of cedars was on his left, while across the road lay jagged red rock boulders. Suddenly a horseman started from the trees. Metal gleamed in the sun, and with a start Link glimpsed two Colts directed his way.

He muttered an exclamation. His rowels touched the mustang, which jerked under him. At the same instant he bent low over the beast's mane and snatched at the forty-five on his thigh.

From the boulders a shot roared. It sang so close that instinctively Fleming slowed. His own gun, not yet drawn, slid back into its holster. Another slug nipped the mustang's mane.

"Don't draw or you're a dead man!" That tone was authoritative and confident. Out of the corner of his eyes Link saw the second horseman sitting straight in the saddle, squinting down the bluish barrel of a Winchester.

He was covered. It would be worse than useless to run or dive for his weapon—rank suicide. With a muttered curse he released the reins as his mount slowed but twenty feet from the two-gun man.

"Up with yore hands, Fleming!" Reluctantly he complied. His rifleman spurred his mount nearer, exchanging his Winchester for a six-gun. He was of medium height, burly of build, wearing a soiled and mussed flannel shirt patterned in large checkers. His face was effectively hidden beneath a bandana that permitted only a narrow glimpse of eyes under the low-pulled anthill hat.

The second holdup was dressed in nondescript garments. He seemed less at ease in the saddle than the first. "Stand still!" he growled, then edged close while his comrade dismounted and came forward.

"I'll have the money first; then I'll take the gun myself. And don't make a bad move, Fleming!"

He was thinking fast. Dared he risk a draw. But those menacing Colts spelled certain death for a wrong move. Link's cheek quirked angrily.

"Suppose you know the penalty for this is twenty years or more?" "Don't talk. Just stick yore fingers in yore pants pocket—left side—and haul out that cash. Quick now!"

He obeyed as slowly as possible. But the guns did not waver, nor the beady eyes above the mask that stared down the shining barrels. He clutched the wallet containing nearly eight thousand dollars, and slowly, reluctantly extended it.

The man on the ground snatched it. Impotent rage that had been warming in Link's breast burst its bonds at that instant. He gave his mustang a merciless jab with the right spur. Startled, and snorting pain, it leaped aside with cat-quickness.

Fleming drew. The two-gun man

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c

jerked both triggers, but his shots whistled harmlessly over head. Link's gun rose, and fire licked from its muzzle. Then another shot that flicked the sombrero of the man afoot. It lifted and sailed away—gently. With a gasp the man whirled and fled.

Again the twin Colts roared—and this time Link felt a knife-like sensation along his ribs. He reeled, clutching at his saddle horn while savagely he shot again.

The bullet went hurtling to its fateful mark. The bandit's guns twirled in mid-air, throwing beams of mirrored sunlight. At the same time he lurched back and toppled over the flank of his frightened mount to strike the road with a plop and a splash of grey dust.

Fleming spun his mustang around and went rushing after the fellow with the money. Into the trees he plunged, recklessly disregarding of branches that gouged at his face and eyes. There was no sight, no sign, of his man.

Then, as he emerged at the roadside at another point, he spied a cloud of furry dust. The fellow had a fast nag! Already he had almost a half mile lead, had gained while Link cautiously probed the cedars. He was far ahead; it would be a long arduous chase.

His heart seemed leaden within him. The cattle money was gone!

Link spurred his horse back to the dead man. He meant to pursue that other chap, but wanted first if possible to identify this one of his hold-ups. The fellow lay where he had fallen in the road, his knees raised like a man sleeping, but his body at a grotesque, twisted angle and his face turned on one cheek in the dust.

Swinging down, Link walked close and knelt. His jaw set grimly as he saw the crimson-black hole, just the size of a dime, in the man's forehead. Well, he deserved it, had asked for it.

The blood-sticky bandana came away. Fleming straightened, startled. "Looks like Berrens!" he exclaimed aloud. "Mister B. I. V. Berrens, the hombre that claimed to represent the Western Improvement Company an' wanted to buy me out that day the ranch house burned!"

After some reflection he grasped the man's shirt collar and dragged him gently to the scant roadside shade. He pressed a clean bandana to the scratch he had got in the side. But there was no time to lose if he meant to chase the thief that still lived. He ran to his horse, snatched its reins, and was mounting when hoofbeats sounded steadily nearer. Link's hand held his gun levelled when suddenly he recognized the newcomers. "Waco! Say, did you see a guy in a checkered shirt high-tailing for town?"

Byrne hauled up in a cloud of dust, his men following suit. "No. What

happened, Link? We heard shoot-in'!"

"Holdup. They took the cattle money, but I got one of 'em. There he is." He gestured.

Byrne's face fell. He grunted as he got down and went to stare at the corpse. Swearing softly, he returned. "Which way'd that hombre go?"

"Reckon we can follow his tracks some. Haltby, that's what you're good at. See there? His boss had a shoe missing. Last I saw of him, he was heading northwest; but you can't tell if he'd keep on that way."

The anger on the bronzed faces of the Star Loop riders kept them sullenly silent except for a muttered oath here and there. Every man's hand sought his gun to reassure himself that it was ready and swinging free. "We'll get him or bust!" rapped out Sime Haltby, the man who had rescued Link from the burning ranch house.

"We've got to!" he returned between gritting teeth as they started off.

There was no sign of the rider now, for of course he had made good his escape while Link delayed to examine his dead pal. But the fresh tracks of his horse, visible here and there, were trail enough to the shrewd-eyed Sime Haltby. The cavalcade pressed on in silence, as fast as the trail allowed.

They rode half an hour, making a long arc. "Say, we're gettin' near town!" Waco pointed to distant roofs.

Link glanced at him. "Maybe that's the best place he could hide."

Art Lavery, one of the punchers, scratched his head. "Might be hard to find a guy holed up in town. Stephen ain't there to get help from. Saw him early this mornin', and he said he had important business on. Reckon he's still making his investigation of that eight hundred dollar job with Helen Hamilton. Shore takes Ames a long time."

"Boys," Link said slowly, his words dropping with crisp earnestness, "I reckon you all know what that money means. Part belongs to Helen Hamilton, most of it to me. Or rather, it belong to you chaps and the men at the dam. Without that cash the boys workin' in the cut might get sore and wreck all they've done."

"Somehow," he stated in a low tone of iron determination, "we've got to get that cash back!"

"Yeah, but how?" Byrne's face wore a hopeless look. "This hombre we trailed has got a place to hide, shore."

Fleming nodded. "That's where you fellows come in. If you'll back me to the limit—and I mean gunplay, maybe—we'll get that cash back. I don't know how, but we will!" His jaw clicked, and with eyes that were mere slits he stared from one to another of the men.

There was a moment of hesitant silence. "Gunplay don't cut any ice with me," Haltby complained. "You don't have to ask me am I scared to pull my shooter, Link."

"Me either!" supported Clem Drew. "Same here. I'm for gettin' that cash. It shore must be in town!" Waco Byrne agreed.

The other three hands voiced similar views. Silence fell as they waited, all eyes on Link.

"Since Stephen isn't around, we have to do our own lawin'. Remember, whatever happens, back me. I'll depend on it. Sime, you and Drew and Porth circle the town to the west. String out as if each was

**Iron the Easy Way**  
**Coleman**  
NEW HEATING  
**IRON**

**Why You Should Have It**

1. Costs only 1/2¢ an hour to use
2. Lights instantly
3. Heats in a few seconds
4. Quickly ready for use
5. Maintains even heat
6. Hottest at the point
7. Irons with less effort
8. Saves 1/2 ironing time
9. No fire to build
10. No ashes to carry

Now you can iron in real comfort in any part of the house... even outdoors behind a shade tree. The Coleman iron is self-heating. No cords or connections. Carry & use it anywhere. Several models available at New Low Prices. Ask your dealer or write us for Free Illustrated Folder and details. The Coleman Lamp and Stove Co., Ltd. Dept. W317, Toronto, Ont.

alone. Walk your nags toward Main Street keeping your eyes peeled for that gunman. He's wearin' a checkered shirt, corduroy pants, and a sombrero. He's pretty tall, but heavy set—a beefy hombre. Black hair, I think, and he had a Winchester along with a saddle boot for it. I think he carried a knife in a scabbard, and one sixgun.

(To Be Continued)

## Little Helps For This Week

Be not overcome of evil, but overcome evil with good. Romans 12:12.

Come in this accepted hour; Bring Thy heavenly kingdom in; Fill us with Thy glorious power; Rooting out the seeds of sin.

If we wish to overcome evil we must overcome it by good. There are doubtless many ways of overcoming evil in our own hearts, but the simplest and most universal is to overcome it by active occupation in some good word or work. The best antidote against evil of all kinds, against the evil thoughts that haunt the soul, against the needless perplexities which distract the conscience, is to keep hold of the good we have. Impure thoughts will not stand against pure words, and prayers and deeds. Little doubts will not avail against great certainties. Fix your affections on things above, and then you will be less and less troubled by the cares, the temptations and the troubles of things on earth.—A. P. Stanley.

## Soviet Democracy

**Abolish Employment Discrimination Against Class Privileges**

The all-union Soviet control committee at Moscow has abolished employment discrimination against classes privileged under the czarist regime.

The order removes bars to employment for former members of the Russian nobility and merchants and was described as a sign of the growth of "Soviet democracy."

It also puts a halt to discriminations against persons with criminal records.

Someone points out there are four "is" in individuality. They stand for industry, intelligence, initiative and imagination. Ah, yes, and those "is" have IT.

All crows are not black; the hooded crow, of Europe, is mostly grey.

In Assam, India, 67 feet of rain has fallen in a single year. 2154

## SOCIAL CREDIT NOTES

Didsbury Pioneer Group held the regular meeting at the home of Mrs. Margaret Cummings on Monday evening. Next meeting will be held at the home of Matthew Green on Monday, July 6th.

Social Credit Group No 1 held a well attended meeting on Tuesday evening at the home of Mr. Fred Hughes. After the business part, a lengthy explanation on various important topics was given by N. D. McDonald. A short report of the trip to the Bible Institute on the occasion of the Social Credit rally was given by Mrs. Schwesinger. The president Mr. A. Schwesinger reported on his meeting with Mr. Aberhart. Three new members enrolled. After the close of the meeting lunch was served by the ladies and enjoyed by all. The next meeting will be held on July 13th at the home of Mr. and Mrs. Andrew Peck.

**Try a CLASSIFIED  
For Sales or Trades---**

## Evangelical Church Notes

The subject next Sunday morning will be "The Splendor of the Ordination". In the evening Rev. H. J. Wood will preach his farewell sermon.

## Notes Here and There.

Elkton held their school picnic on Friday at Mr. Byrt's place. After lunch races and ball games were the order of the day, also swimming, and later ice cream was served to everyone. Little Agatha Keimer presented Miss Mann with an Aero-pack Case, a token of esteem from the people of the district.

The young people of the Moravian Church held a very enjoyable evening of orchestra numbers, duets, solos, etc. in the Elkton school on Sunday, under the leadership of Mr. John Befus Jr., a pupil of the Three Hills Bible Institute. A goodly crowd was out and we hope that the service will be repeated.

Miss Frances Lynch is visiting at her home for a few days. She recently underwent an operation for goitre and everyone is glad to see her looking so well.

We are sorry to hear that Mrs. F. Byrt is in Didsbury Hospital with eye trouble. We all join in wishing her a speedy recovery.

Mr. and Mrs. D. Evans have the former's sister from Washington visiting them.

The Indians passed through Elkton on Sunday enroute for Sundre.

Join pirate revels staged at the cost of a king's ransom—Captain Blood this week end.

Mr. and Mrs. Chas. Ratcliff arrived Tuesday from Kimberly. Mrs. Ratcliff will spend several weeks with her parents Mr. and Mrs. M. B. Clemens.

Raymond Bellamy, of Edmonton, is visiting his old school mates here this week.

## LOCAL & GENERAL

Westerdale Club Sports Day and Dance, Wednesday, July 22.

Miss Dorothy Geeson is visiting friends at Irma, Alberta.

Mr. J. A. McKay and Miss Hazel Hall, of Kimberley, B.C., are spending a few days with Mr. and Mrs. Reg. Brooker.

Mrs. J. R. Geeson and daughters left Wednesday for a two-weeks' vacation at Sylvan Lake.

Mr. Orville Kirk left Wednesday for Edmonton, where he will mark examination papers.

Mrs. Bert Fisher and her brother Mr. Otto Mueller, of Ghost Pine, leave this week for a motor trip to Vancouver.

Results of the High School departmental promotion tests were handed in too late for publication this week, but will be published next week.

Mr. and Mrs. Jack Fleury leave Sunday for Vancouver. Miss Irene Cronk of Calgary will take over Mrs. Fleury's business while she is absent.

Miss Bernice McGhee underwent an appendicitis operation at the Calgary General Hospital on Tuesday. We are pleased to report she is progressing favorably.

The Band has been engaged to play in the Calgary Stampede Parade on Monday. Anyone who is going down and who can take any of the boys, please notify Ernest Clarke or George Royds.

Word has been received from the Toronto Conservatory of Music that Miss Eileen Geeson has passed with honors the Gr. X Senior Examination, and that Miss Gladys Geeson has passed the Grade IX Intermediate Examination.

Mr. and Mrs. A. Traub, Harley Traub and the Misses Velma, Ruby and Mildred Traub, left this week for Alaska, Sask., where they will attend the wedding of Mr. Ernest Traub, Didsbury, and Miss Pearl Frey, of Acadia Valley.

Mrs. W. J. McCoy entertained the Past Noble Grands of the Rebekah Lodge to a chicken dinner on Friday evening. After dinner bridge was played, with the following taking the honors: 1st Mrs. Russell McCoy, Carstairs; 2nd Mrs. Nyle Hunsperger; consolation, Mrs. Frank Stevens. Past Grand Jewels were presented to Mrs. Nyle Hunsperger, Mrs. Ross Ford and Mrs. J. W. Halton. All present thoroughly enjoyed the evening.

Watch giant ships crashing in combat in mid-Atlantic—Captain Blood, this week end.

## Westcott Notes

The Westcott W.I. held their regular meeting on Thursday, June 25th, at the home of Mrs. Harry Levagood. The topic was "Home Economics," a splendid paper being given by Mrs. J. Hughes, explaining the vitamins and the foods which contain them. The roll call was responded to by naming "the household task which we like best to do." The contest, "what we should feed our husbands" caused lots of amusement. A splendid report of the constituency convention was given by Mrs. Harry Steckley. Lunch was served by the hostess, Mrs. E. Craig will entertain the next meeting.

## RUGBY NOTES

A second successful dance was sponsored by the Rugby Girls' Softball Club at Rugby School on Friday last. The dance was in the form of a calico ball, and the fines imposed on the partners of the girls who appeared in other than cotton dress, added much to the hilarity of the evening. The music was good and an enjoyable time was had by all present.

Connie and Douglas Hosegood motored to Edmonton last weekend. On their return, they were accompanied by Miss Dorothy Niddrie of that city, who will spend the week as the guest of Miss Hosegood at the home of her parents.

## LOCAL & GENERAL

Mrs. Foote, Delmar and Eldon motored to Calgary on Friday.

Mr. and Mrs. J. M. DeWitt and family of Arrowwood are visiting with Mr. and Mrs. Tom DeWitt.

The regular monthly meeting of the W.C.T.U. has been postponed until Thursday, July 16.

Mr. R. J. Hamlett, of Calgary visited with Mr. and Mrs. J. W. Halton on Friday.

Before taking your holidays—Buy Your Travelling Goods From T. E. Scott.

Mr. Clarence Cipperley left Friday to visit his old home at Washta Iowa. While he is there the Cipperley family will hold a reunion.

Mrs. Duncan Lamont returned last week from Winnipeg where she had been visiting her mother and sisters.

We are informed by Mr. Orville Kirk, secretary of the Tennis Club, that from July 1 the gents membership fee will be \$3.00 for the remainder of the season.

Lost on highway between Didsbury and Innisfail on Tuesday, June 30, a Black Club Bag containing lady's clothes. Finder please return to Pep Groceries, phone 79 Didsbury.

Why not try a pair of our popular \$2.25 Summer Work Shoes.—T. E. Scott.

Bob Gooder and Frank Raymond returned Sunday from their motor trip to California. They went via Salt Lake and returned via the west coast. They drove 5,500 miles and had a wonderful trip.

Mr. Barron Gage and family left on Sunday for North Dakota where he will make his home. Mr. Gage formerly lived in Dakota. He has been mechanic at Barrett's Garage for the past five years.

Of interest to Didsbury friends and relatives is the marriage of Mr. Clarence Shantz, son of Mr. and Mrs. Melancton Shantz of Didsbury, to Miss Hazel Miller, eldest daughter of Mr. and Mrs. Ernest Miller of Bright, Ontario, June 25. Mr. Miller homesteaded at Westcott in the earlier years.

W. McIvor has taken a position as mechanic for Roger Barrett. Mr. McIvor has formerly been employed at the Ford Garages at Calgary and Edmonton and comes here with a reputation as an expert Ford service man.

To the first person bringing me a \$5.00 Prosperity Bond I will give a Pair of the Best Shoes in my store! T. E. Scott.

Mr. Harold Welch left Monday to attend the Anglican Summer School being held at Banff this week. From there he will leave for Montreal where he will join the Vimy pilgrimage enroute to France and England.

Tomorrow, Friday, is Carstairs' big day. The parade starts at 10 a.m. with a full quota of entries, while the Stampede event commences at 1 p.m. Many of the riders and cowboys who will be at the Calgary Stampede have entered in all the events.

Commencement Exercises for the 1936 Graduating Class of Mt. View Bible School will be conducted in the Big Tent on the camp ground, Saturday, July 4 at 2:30 p.m. The address will be given by the evangelist, Rev. F. Arthur, of Detroit. A cordial invitation is extended to all.

A modern mechanized cavalry regiment the 19th Alberta Dragoons, formerly known as Alberta Mounted Rifles, passed through Didsbury on Saturday morning on its way to Sarcee camp for the annual ten day training under the command of Lt.-Col. W. L. Oliver, M.C., V.D. of Edmonton, with Lt.-Col. E. A. Pittman, of Chauvin, second in command. With pennants flying, some sixty or seventy cars, accompanied by half a dozen motorcycles with mounted police cars leading and bringing up the rear, the regiment made an imposing sight.

Weekend Special.—Free Pair of Socks with Every Pair of Leather Shoes we sell.—T. E. Scott.

See 1500 men battling to the death with club and cutlass—Captain Blood, this week end.
